

CARER STORAGE ROOM

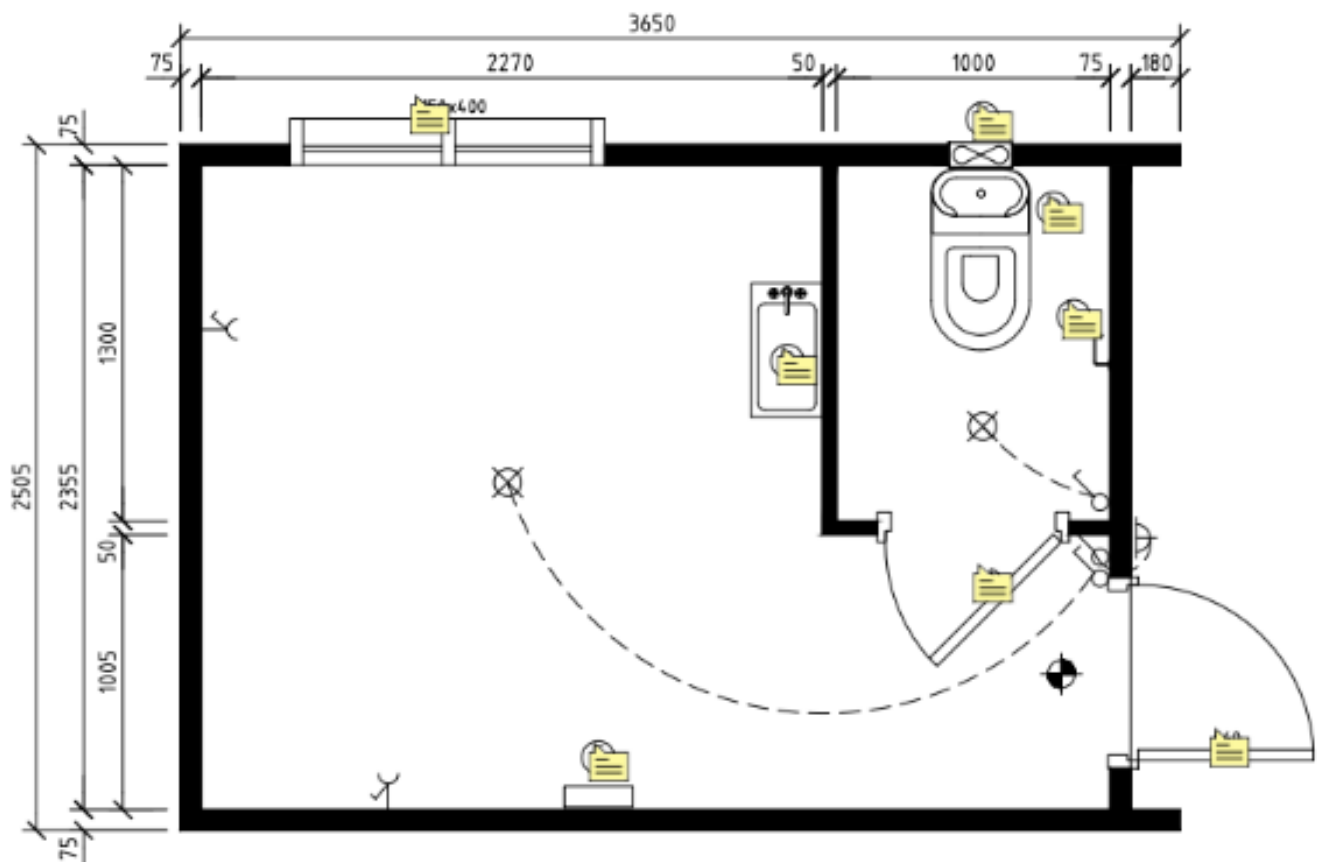

COMPACT UNITS DESIGNED TO HOUSE CARERS OR STORE EXTRA GOODS

At a small 3.65m wide x 2.5m wide, it can fit in many small spaces on almost any property. Designed to work with our other products, it can be plumbed in with a toilet and basin for carers to live in.

Alternatively, you can have a bare room that is big enough to store any extra things you may have that you just don't have the space for. Especially if it needs to be handy to your client.
