

STEP-UP WHEELCHAIR LIFT

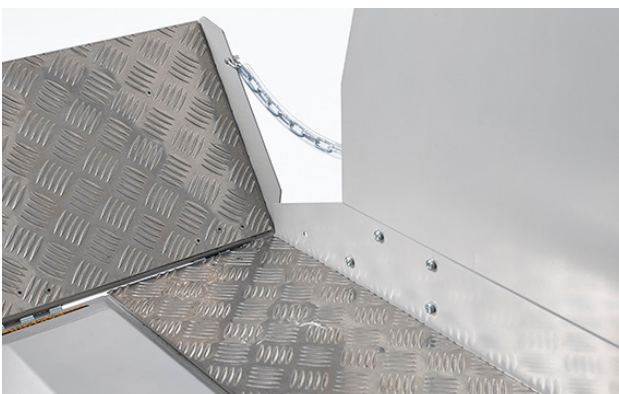

THE EASY WAY TO GET UP AND DOWN STEPS, IN & OUT OF SHOWERS AND ON & OFF THE TOILET

HOIST Step-up can also be used as a hoist. The lifting arm can be easily fitted and removed as required

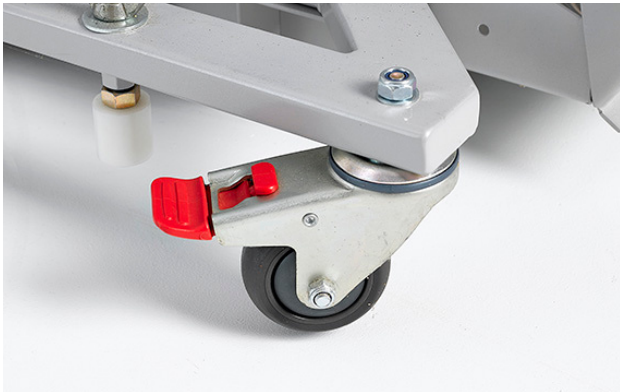

EASY CONTROL PANEL
Featuring easy to use toggles with emergency stop. Step-Up electronics prevent any over-travel with every function having limit switches

FULLY ADJUSTABLE RAMPS
Comes with two adjustable ramps that can be easily raised and lowered. When up they provide a safe platform for the wheelchair

STEP-UP WHEELCHAIR LIFT

**EASY GLIDE BRAKE
WHEELS** Comes with four
foot-operated braked wheels

The Step-Up is designed to be completely portable. It glides easily on most surfaces and has a range of lift of 0 - 50cm.

Easy to use, so no special training is required

For transport it can easily be broken down into three parts for easy access to almost any location. Comes with AC battery charger and long-life, maintenance free batteries.
